

CASE-BASED LEARNING: LEARN WITH YOUR PEERS

- Collaborate on cases with Specialists, laboratories, and GP colleagues
- Acquire additional interdisciplinary skills
- Reach new levels of clinical excellence
- Increase your confidence in treating complex cases
- Offer patients more comprehensive treatment
- Choose a Learning Pathway to suit your interests

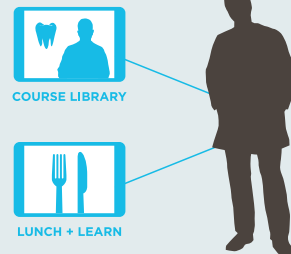

PRACTICE-BASED LEARNING: OPTIMIZE YOUR PRACTICE

- Increase the clinical value of your entire team
- Learn to treat cases of higher value
- Use Case Assistant to select symptoms and target learning
- Teach staff to educate patients about value of care
- Implement Structured team meetings
- Grow practice revenues and profitability

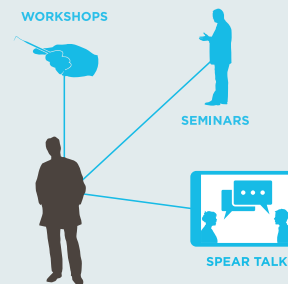

CLINICAL-BASED LEARNING: GROW YOUR INDIVIDUAL SKILLS

- Pursue your own clinical learning path
- Create an individualized practice learning curriculum
- Keep each team member current in their area of specialization
- Give staff members access to independent learning

COMMUNITY-BASED LEARNING: ENGAGE IN THE SPEAR ECOSYSTEM

- Share Best Practices with team and peers
- Engage with Spear colleagues on a range of issues
- Learn from advanced clinicians who want to give back
- Present cases for discussion and advice on SpearTALK
- Join peers at Seminars and Workshops on campus (One Seminar included in 1st year of membership)
